Other available Ranch Hand components  
 (check our product listing for available kits)

Easy Switch Receiver.  
 Standard receiver has  
 small toggle switches on  
 the rear of the unit. Easy  
 Switch receiver features  
 easy to handle dial.  
 (P/N: RHES)

Watertight Transmitter.  
 Standard transmitters  
 must be kept out of the  
 elements. Our watertight  
 transmitter can be mounted  
 outdoors in any conditions.  
 (P/N: RHWPTX)

Always keep in mind that  
 line of sight is VERY  
 important with any  
 wireless signal. Check  
 out our FAQ on our  
 website for more  
 information.

Important to consider  
 when mounting wireless  
 components, that your  
 camera and transmitter  
 will require a power source.
